

TOWN OF WYTHEVILLE DEPARTMENT OF THE MONTH – FEBRUARY 2024

Public Works

The Public Works Department is responsible for a variety of duties associated with the maintenance and repair of Town-owned facilities as well as the upkeep of over 170 miles of Town streets. The department collects refuse from residential dwellings and small businesses once a week from the curbs of those who utilize the Town's annual decal program. Additionally, neighborhoods are kept clean by the monthly curbside brush collection service that is offered at no cost to residents. Mowing and landscaping of Town properties, streets, and parks is also conducted as well as maintaining the three Town-owned cemeteries and mausoleum.

The Town maintains a Recycling Center with an assistant on duty for the purpose of solid waste disposal by recycling glass, some plastics, mixed metals, cardboard, newspapers, and magazines.

Public Works is responsible for all street name signs, road signs, and traffic signals. The department is also in charge of snow removal. During snowstorms, crews work twenty-four hours a day to keep the main arteries clear within the corporate limits. Lesser connector roads are cleared after the main arteries are sufficiently maintained. General street maintenance throughout the year includes ditches, shoulders, potholes, utility cut repairs, tree trimming and street sweeping.

"Members of the Public Works Department perform many essential services which keep the Town operating smoothly, but also are aesthetically pleasing and make our community an attractive place to live and work," said Brian Freeman, Wytheville Town Manager. "Many employees in this department have decades of experience and play an important role in providing important services to citizens."

Name	Job Title	Years of Service
Tammy G. Akers	Building Maintenance Custodian III	16
William R. Akers	Maintenance Tech II	36
John C V Allison	Building Maintenance Custodian III	2
